

NEW HAVEN PUBLIC SCHOOLS

Sample Schedules for Remote Learning

These are sample schedules that provide structure to students, families, and school staff to help build routines, set and communicate learning expectations, ensure appropriate levels of synchronous instruction, and allow time for strong operational planning. During each subject-specific learning period, students use Google Meet to engage in (a) synchronous, “live” instruction and feedback from teacher at specific times, which may be in whole class, small group, or 1:1 settings; and (b) independent and small group work time.
